

M/V KLONDIKE EXPRESS CHARTER INFORMATION

CRUISE IN LUXURY!

FIRST CLASS SERVICE IN AN EXTRAORDINARY SETTING

The Klondike Express is the largest, fastest and most luxurious catamaran in Alaska, averaging 34 knots while underway. This 137-foot, high-speed catamaran holds 332 passengers on three decks, two of which are enclosed and heated with an inside seat at a table for every passenger on board. Monitors display the route map on both passenger decks making it easy for guests to follow along as we explore Prince William Sound. The M/V Klondike Express is used on the 26 Glacier Cruise and for private charter service.

M/V KLONDIKE EXPRESS CAPACITY **137 Feet (41 M) | 34 Knots (63 KPH) | 332 Guests + Crew**
ADA Limited | Restroom Equipped

MAIN DECK:

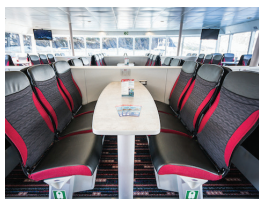

The main deck has large panoramic windows for guests seated inside to take in the view. Outside, there are several spacious viewing areas. Due to our ability to cruise quickly, the bow doors are generally opened only when the vessel has reduced speed or is stopped for viewing glaciers or wildlife. The aft deck is accessible at any time. The saloon, galley and gift shop are located on the main deck. Four of the seven restrooms on board are located on the main deck.

SECOND DECK:

Ample seating is strategically arranged to allow all guests a terrific view. The second deck aft also called the Red Deck, is partially sheltered from the wind while we are underway. Three restrooms are located on the second deck.

THIRD DECK:

Designed with spacious outside decks to view the scenery. The wheelhouse, located on the third deck, may be accessed during the cruise with permission from the Captain. We request that no more than four guests enter the wheelhouse at any time and that they limit their visit to a few minutes to allow time for others to step in.

Begin your event with a toast to your success and celebrate with your team aboard a first class catamaran by Phillips Cruises & Tours.
